Texas A & M International University (TAMIU) is seeking candidates for the Dean of the College of Nursing and Health Sciences. The successful candidate will be an effective, innovative and collaborative leader who will provide the vision and creativity in growing an interdisciplinary College and work with faculty and the University community to achieve strategic goals for the College. TAMIU is a growing international University of nearly 9000 students, serving as the cultural and intellectual hub of a vibrant multilingual and multicultural community. The College of Nursing and Health Sciences (CNHS) has seen progressive growth and will be adding a new State-of-the-art Health Sciences Education and Research Center in Fall, 2025. Two new programs in the Health Sciences department are slated for launching, the Doctor of Physical Therapy and a Bachelor of Clinical Lab Science. These additions strategically position the College and the University to add to its growing interdisciplinary College and address the medically underserved communities it serves and the health needs of the region. Reporting directly to the Provost, the Dean will be a key leader in advancing the mission of TAMIU and preparing students to practice in an increasingly complex and multicultural society.

OVERVIEW OF TEXAS A&M INTERNATIONAL UNIVERSITY

A Member of The Texas A&M University System, Texas A&M International University (TAMIU) is a primarily Hispanic-serving, State-assisted university founded in 1970. Its 300-acre campus is located in northeast Laredo on former ranchland.

The campus is home to a diverse enrollment of nearly 9,000 students from 31 countries and 28 US states. TAMIU offers transformative undergraduate, graduate and doctoral degrees in the arts and sciences, business, education, and nursing. As its name affirms, the University focuses on developing an international academic agenda for the State of Texas. The University's 30,000+ graduates lead lives of change and impact worldwide.

TAMIU's ability to dramatically impact its graduates' social economic mobility has been praised by Stanford University's Equality of Opportunity Project, the American Council on Education, and CollegeNet.

TAMIU has been recognized as one of the nation's Top Ten-ranked Southern Colleges in Washington Monthly Magazine's 2024 College Guide "Best Bang for the Buck," ranking #5. TAMIU also earned a # 2 ranking for low net price. WalletHub recently ranked TAMIU 8th among Texas's Top Ten Universities in its College & University Rankings 2025 and was the only A&M System regional campus to crack the Top Ten.

Texas A&M International University nurtures its students' academic and social development through instruction, research, and service to be responsible and productive members of our global society.

ACADEMIC PROGRAMS (COLLEGES OVERVIEW)

Texas A&M International University is comprised of five Colleges/Schools, the Graduate School and the Sue and Radcliffe Killam Library. Colleges and Schools include the A. R. Sanchez, Jr. School of Business, the College of Arts and Sciences, the College of Education, the College of Nursing and Health Sciences and University College. The University offers a range of baccalaureate and

masters programs and the Doctor of Philosophy degree in International Business and the Doctor of Philosophy in Criminal Justice. Programs focus on developing undergraduate and graduate offerings with a progressive international agenda for global study and understanding across all disciplines.

ACCREDITATION

Texas A&M International University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award baccalaureate, masters, and doctorate degrees. Texas A&M International University also may offer credentials such as certificates and diplomas at approved degree levels.

The undergraduate and graduate programs in the Dr. F. M. Canseco School of Nursing in the College of Nursing and Health Sciences are accredited by the Texas Board of Nursing and the Accreditation Commission for Education in Nursing.

STRATEGIC PLAN

The University's Strategic Plan, 2023 – 2030, developed by a cross-section of the campus' faculty, staff, and students drives its development. Goals include acting as a social catalyst, advancing research excellence, empowered student success and wellness, excellence

in advancement and stewardship, transformative international experiences and visionary academic programs and faculty. Clear objectives and strategies are outlined for each in the Strategic Plan. For further information, see: [Strategic Plan 2023-2030](#).

LOCATION – LAREDO AND SURROUNDING COMMUNITY

[Laredo](#) is 156 miles south of [San Antonio](#), 158 miles west of [Corpus Christi](#), and 153 miles north of [Monterrey, Nuevo León, México](#). It is located at an enviable crossroads of international business and life and its history hallmarked by seven sovereign flags.

A downtown revitalization project is currently underway and major commercial development projects are

underway. Laredo is one of Texas's and the nation's fastest-growing communities. Ranked the safest city in Texas by WalletHub (2024), its rich history, colorful environment, and tropical climate nurture a pleasant lifestyle for all.

For more information see the [About Laredo](#).

COLLEGE OF NURSING AND HEALTH SCIENCES

The mission of the College of Nursing and Health Sciences, Dr. F. M. Canseco School of Nursing, is to prepare professional health care providers to improve the well-being of complex populations.

The college is in a unique position because of its geographic location to prepare health care providers with distinct critical-thinking skills and practical responsibilities through innovative and enhanced hands-on classroom and clinical experiences. Academic programs in the college include formal and informal components with a focus on providing care to a diverse population amid rapid changes in health care systems and treatment.

The faculty of the College of Nursing and Health Services (CNHS) are committed to educating outstanding clinicians, scholars, health advocates, mentors and leaders who will be instrumental in addressing the health

care needs of communities. Strong communication skills are essential to enactment of these roles and health care providers must also be increasingly concerned with the ethical, legal, political and socioeconomic dimensions of their practice.

Health care professionals use the therapeutic process that engages the patient, families and communities for the purpose of meeting health needs. Health care providers understand health and illness to be relative conditions that include life experiences and biological phenomena. Effective health care providers utilize a broad framework based on the humanities and the social and biological sciences. Furthermore, the provider-patient relationship requires a broad understanding of diverse individuals and communities along with the therapeutic use of self.

HISTORY

The Dr. F. M. Canseco School of Nursing grew from the commitment of the Laredo community to address the unmet health needs of the city and surrounding border area. The curriculum, designed for the special needs of a culturally diverse population, is based on theories of transcultural nursing and human caring. The innovative, community-based curriculum combines mastery of acute clinical nursing competencies with effective community development strategies. Approval was received in September 1994 for a baccalaureate completion program (RN/BSN) for Associate Degree Registered Nurses, and the first students were admitted in January 1995. The RN/BSN program received full accreditation from the Texas Board of Nursing in May 1996. Following the graduation of the first student and in October 1997, the program earned 5 years initial accreditation from the

National League for Nursing Accrediting Commission. Success of the RN/BSN program and the increasing need for Registered Nurses in Laredo and the surrounding community led to approval of the Basic Bachelor of Science in Nursing (BSN) program for implementation in Fall 1998. Reaccreditation of the BSN programs and initial accreditation of the MSN program by Accreditation Commission for Education in Nursing (ACEN) was received in 2004.

Previously under the College of Education, the Kinesiology and Communication Disorders programs moved to the College of Nursing and Health Sciences under the Health Science department in the Summer of 2019. The CNHS began to offer a Bachelor of Science in Public Health beginning in 2020.

COMMUNITY PARTNERSHIPS

The growth and development of the Dr. F. M. Canseco School of Nursing has been made possible by the outstanding support received from the Laredo community. The Lamar Bruni Vergara Trust and Mercy Health Systems of Texas provided funding for program development, faculty and student support. Spacious,

state-of-the-art facilities in the Dr. F. M. Canseco Hall and an endowed scholarship fund serve as a family memorial to a noted Laredo physician and his wife, Dr. F. M. and Consuelo Canseco. Other endowed scholarships honor Laredo families and local philanthropic organizations also offer scholarships to nursing students.

FACILITIES (NEW BUILDING)

The state-of-the-art Health, Education, Science and Research Center (HSERC) is the newest addition to the 300-acre campus and part of a \$71.2 million construction and expansion. The three-story HSERC will be an interactive clinical building promoting learning and research within the health sciences, one of TAMIU's fastest-growing study areas. It will accelerate interaction

with the public by TAMIU faculty and students and be a home for greater clinical/demonstration appointments through public-facing communications disorders, kinesiology research, and public health. It will be a fitting home for programs prioritized by the 88th Legislative Session—Clinical Lab Sciences and the Doctor of Physical Therapy.

LEADERSHIP AGENDA FOR THE DEAN OF THE COLLEGE OF NURSING AND HEALTH SCIENCES

The selected candidate will join the TAMIU community during a time of growth and expansion in the health sciences. The Dean of the CNHS offers a unique leadership opportunity to lead an expanding interdisciplinary college and be a key strategic leader in advancing the mission and vision of TAMIU. The University's strategic plan has called for visionary academic programs, advancing research excellence, supporting student success and well-being, fostering community and global partnership, and aligning with its mission, core values and vision. The next Dean of the CNHS will be able to build their administrative team and will have the following key leadership agenda priorities as the college continues to grow and thrive:

- **Innovate and grow academic program expansion within the College.** The CNHS has seen steady and progressive growth in programs across nursing, public health, kinesiology and communication disorders. With the advent of two new program launches in physical therapy and clinical lab sciences, the importance of growing innovative health science programs will be a priority agenda for the Dean and working with the faculty and community for programs that are needed to address the health care needs of the community. Innovation in cutting-edge teaching methodologies in the classroom and laboratories will be important advancing into the future, as well as planned strategic growth of other new programs that fit with the University's mission and vision.
 - **Provide the vision, creativity, and change management in growing an interdisciplinary college with multiple and growing departments.** With the rapid changes occurring at the University and the College, the successful candidate will possess the creativity and collaborative skills to lead into the future and work with faculty and departments, in planning for new markets/ programs and navigating strategic direction for the College. The next leader will provide the leadership, mentoring and stability for a committed group of faculty and staff in the education of a multicultural student population and in the scholarly productivity of faculty. Strong communication and collaborative skills will be essential in working with faculty, staff, administrators and community partners. As well, strong administrative experience in leadership and accreditation expertise with professionally licensed programs is a necessity.
 - **Emphasize a student-centered approach for both undergraduate and graduate students that highlights student success and well-being.** Often dealing with
- a first-generation student population and progressing through a rigorous curriculum requires an approach that ensures that students are provided with the education and support for success in retention and graduation outcomes. Ongoing progress has been made, but a continued focus for the College is ever-present.
- **Demonstrate and build a culture of research and scholarly productivity within the College.** The University has plans to move to a R-2 status as part of their strategic plan for advancing research excellence in the future. With the current construction of a state-of-the-art Health Sciences Education and Research Center, it will drive continued program growth and expand impactful teaching, service and research opportunities for the College. Learning and research within the health sciences will be a priority and the Dean will be a key leader in the promotion of grant procurement for funded research in health sciences and community-based research, along with other fundraising efforts for program investments and student scholarships.
 - Dissemination of trans-disciplinary research through peer-reviewed publications will be impactful and transformational for health of the underserved communities TAMIU serves. Working with faculty and departments in developing a culture of scholarly productivity and dissemination will be a key priority for the successful candidate experienced in research and support of faculty scholarship.
 - **Expand and build on community partnerships both regionally and beyond.** The importance of meaningful and sustainable partnerships in the community is critical for clinical education of undergraduate and graduate students. The successful candidate will actively promote agreements and partnership opportunities with health care systems in the region, other business and agencies, both within and outside of the region.
 - **Strategically build on the mission, vision and core values of TAMIU and the College in further development and expansion of the College.** Through expansion and continued growth of the College with two new program launches, the Dean's leadership will be critical. As the University continues to prepare students for leadership roles in an increasingly complex, multicultural society, a demonstrated commitment to working with a multicultural population and first-generation college students will be a critical leadership element.

REQUIREMENTS, CHARACTERISTICS AND ATTRIBUTES

The ideal candidate to become the Dean of the College of Nursing and Health Sciences will possess:

MINIMUM REQUIREMENTS:

- An earned doctorate degree from an accredited institution with one graduate degree in a relevant academic discipline.
- A record of achievement in teaching, scholarship and service that merits appointment at the associate or full professor rank
- Significant and progressive academic administrative experience

DESIRED CHARACTERISTICS, EXPERIENCES & ATTRIBUTES

- Excellent communicator with strong interpersonal and listening skills. Ability to engage collaboratively with multiple constituents on campus internally and with the external community
- Understanding of, and experience with undergraduate and graduate program offerings and across various teaching and delivery modalities
- Strong record of publications in peer-reviewed journals
- Research experience and an established record of seeking and securing externally funded grants
- Supervisory experience, which may include hiring, developing, and mentoring faculty
- Strong financial and business skills, with experience in budgetary and fiscal management skills needed in a higher education environment
- Experience with professional accreditation processes
- Experience building partnerships and promoting collegiality and collaboration amongst internal and external constituencies
- Demonstrated effectiveness in team building and conflict management
